# Journal of Soil and Water Conservation
## Index to Volume 30

Allison, Bruce E. (and Leon Lyles): Wind Erosion: Uniformly Spacing Nonerodible Elements Eliminates Effects of Wind Direction Variability, 225

Anderson, Raymond L.: Urbanization of Rural Land Along Northern Colorado's Front Range, 94

Anderson, William D. (and Gregory C. Gustafson and Robert F. Boxley): Perspectives on Agricultural Land Policy, 36

Bagley, George R.: Conservation Viewpoint: Strengthening the Small Watershed Program, 110

Boerma, A. H.: The World Could Be Fed, 4

Bogucki, Donald J. (and John L. Malanchuk and Theron E. Schenck): Impact of Short-term Camping on Ground-level Vegetation, 231

**Books Reviewed**

Agricultural Waste Management (1975): Raymond C. Loehr, 96

Broadleaf Trees for Nebraska (1974): Neal E. Jennings, Richard J. Gavit, Jerry L. Mohler, and Gary L. Christoff, 96

Ecology and Reclamation of Devastated Land (1973): Russell J. Hutnik and Grant Davis, eds., 189

Environmental Education (1974): James A. Swan and William B. Stapp, eds., 244

Fluvial Processes in Instrumental Watersheds (1974): K. H. Gregory and D. E. Walling, eds., 140

Forest Policy for the Future—Conflict, Compromise, Consensus (1974): Marion Clawson, ed., 97

Grasslands of the United States (1974): Howard B. Sprague, ed., 54

Resource Economics: Selected Works of Orris C. Herfindahl (1974): David B. Brooks, ed., 243

Sanitary Landfill: A State-of-the-Art Study (1974): National Center for Resource Recovery, Inc., 243

Shoreline for the Public: A Handbook on Social, Economic, and Legal Considerations Regarding Public Recreational Use of the Nation's Coastal Shoreline (1974): Dennis W. Ducsik, 296

The Costs of Sprawl, Environmental and Economic Costs of Alternative Residential Development Patterns at the Urban Fringe (1974): Real Estate Research Corporation, 54

The Florida Experience: Land and Water Policy in a Growth State (1975): Luther J. Carter, 189

The Governance of Common Property (1975): Edwin T. Haefele (ed.), 296

The Making of the TVA (1974): Arthur E. Morgan, 96

Thinking Like a Mountain: Aldo Leopold and the Evolution of an Ecological Attitude Toward Deer, Wolves, and Forests (1974): Susan Flader, 140

Water and Landscape: An Aesthetic Overview of the Role of Water in the Landscape (1974): R. Burton Little, Jr., Robert J. Tetlow, Jens Sorenson, and Russell A. Beatty, 243

Water, A Primer (1974): Luna B. Leopold, 140

Boxley, Robert F. (and William D. Anderson and Gregory C. Gustafson): Perspectives on Agricultural Land Policy, 36

Brown, E. Evan (and Fred J. Holemo): Farm Ponds Can Pay Dividends, 136

Carter, D. L. (and C. W. Robbins): Conservation of Sediment in Irrigation Runoff, 134

Clawson, Marion: Conflicts and Strategies in Forest Land Management, 63

Cline, Marlin G. (and John R. Vann): Estimating the Mean Annual Soil Temperature of Areas Correlated as the Same Soil Series Where Both Elevation and Latitude Vary, 85

**Conservation**

is a good word, 62
news, 55, 100, 142, 192, 246, 298
practices, economics of land leveling, 177
viewpoint (editorial), 2, 62, 110, 158, 206, 262

Crosson, Pierre R.: Environmental Considerations in Expanding Agricultural Production, 23

Currin, S. T. (and R. E. McLin and C. W. Doty): Controlled Subsurface Drainage for Southern Coastal Plains Soil, 82

Doty, C. W. (and S. T. Currin and R. E. McLin): Controlled Subsurface Drainage for Southern Coastal Plains Soil, 82

**Drainage**

of Southern Coastal Plains soil, 82

Drew, James V. (and Paul M. Seevers and David T. Lewis): Use of ERTS-1 Imagery to Interpret the Wind Erosion Hazard in Nebraska's Sandhills, 181

Dyrness, C. T.: Grass-legume Mixtures for Erosion Control Along Forest Roads in Western Oregon, 169

**Economics**

effects of agricultural export alternatives, 121
evaluating flood control projects, 227
impact of environmental programs, 272
of food production, cattle versus grains, 268
of land leveling for grain production, 177
off-site damages of sediment, 219

Edwards, William A. (and J. L. McGuinness): A Watershed Soil Index of Runoff Potential, 184

**Energy**

needs of American agriculture, 48
requirements for various tillage systems, 72

**Environment**

considerations in expanding agricultural production, 23
controls, EPA's relationship to agriculture, 33
effects of forest fires on, 78
planning, carrying capacity is key to, 160
programs, economic impacts of, 272

**Erosion, Soil** (see also wind erosion)

along Lake Michigan shoreline bluffs, 138
control, along forest roads, 169
control, The Iowa Conservancy Law, 132
effects of forest fires on, 78
establishment of limits, 166
estimates of off-site damage, 219
estimating with Cs-137, 283
from roadsides, use of soil loss equation, 289
occurring in 1973-74, 29
on selected high clay subsoils, 173

**Farm Ponds**

catfish as a source of revenue from, 136

Fenton, T. E.: Use of Soil Productivity Ratings in Evaluating Iowa Agricultural Land, 237

**Fertilizer**

formulas for applying organic wastes as, 286
potential of wastes on land, 68

**Floods**

control, evaluating projects, 227
initial reservoir, effects on vegetation, 294

**Food**

can be produced to feed the world, 4
economic impacts of environmental programs on, 272
effect of weather patterns on production, 44
environmental considerations in meeting needs, 23
export alternatives, effects on land use, crop prices, 121
land use for food and living, 206
production, cattle versus grains, 268
production, implications for land resources, 2, 264,
role of U. S. in meeting world needs, 12
U. S. energy needs to produce, 48
U. S. land needs for meeting demands, 15
world food conference report, 8

**Forests**

conflicts in management of, 63
controlling erosion along roads, 169
effects of initial flooding on, 294
fires, impact on soils and vegetation, 78
infrared photography for inventories on, 125
vegetation, effect of camping on, 231

Frink, C. R. (and G. H. Heichel): Anticipating the Energy Needs of American Agriculture, 48

Garn, Herbert S. (and Robert C. Malmgren): Use of Color Infrared Photography for Forest Land Inventories, 125

Gilley, J. R. (and D. R. Linden and W. E. Larson): Conse-
